

PlayTime Tots 3

Ages: 2.5-3 yrs (will turn 3 before January 1 2018)

In this transitional class between Parent and Tot and our "FUN" demantal programs participants will continue to develop fundamental movement skills such as jumping with two feet, safety landings, climbing and rolling. In this coach led class parent participation is required but our goal is that the children are participating in class without the guidance of their parent/caregiver. Children will explore both gross and fine motor skills while also working independently from their parent/caregiver. Through structured circuits, free exploration time, games, music and dance children will begin to developing body awareness, agility, balance, coordination, strength, and flexibility. Completion of PLAYtime Tots 2 is strongly recommended.
